

Casque Isles Trail Campsite Information

All campsites are first come—first served. There is not a reservation system for campsites along the trail.

If you have to share a site, be considerate to others.

Remember, if you can carry it in, then you can carry it out! Do not dispose of garbage in the fire pits or bear boxes.

Not only are you leaving your trash behind for someone else to carry out, garbage will draw bears to the area.

Think of your fellow hikers who will come behind you!

Extinguish any fires with water until they are cold. Occasionally there will be Fire Bans in the area, consult the authorities before your hike or contact the Club at casqueisles@gmail.com.

Obey any Fire Ban or restrictions, this is our backyard and we wouldn't want any user to be responsible for a wild fire.

Specifics of all sites can be found on the last page of this document.
